

I am going to sing down through
the twists and bends of your
heart and you are going to
know something I know and we
are going to knot together by
the soul and the spirit of spirits
will come down to see it.....

I have ruined this with my doubt, I always do.

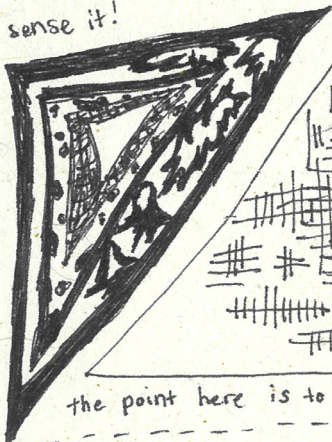

* it's the lack of confidence that makes art bad.

You can sense it!

you can feel every correction and doubt and that's what bad art is

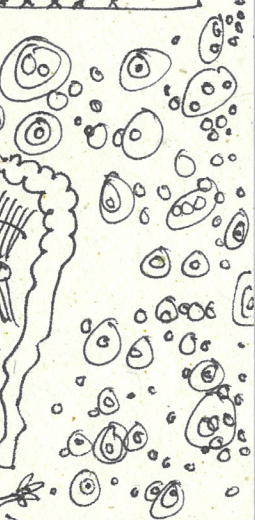

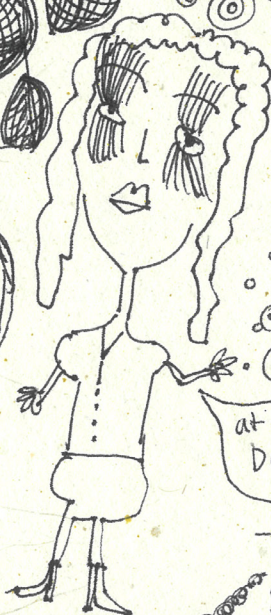

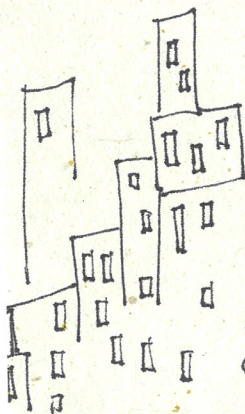

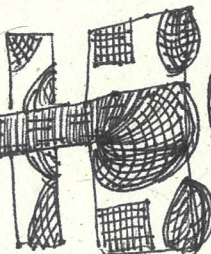

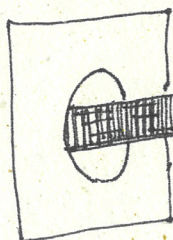

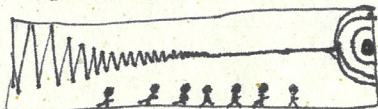

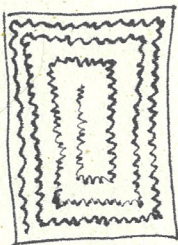

the point here is to ruin your experience by...

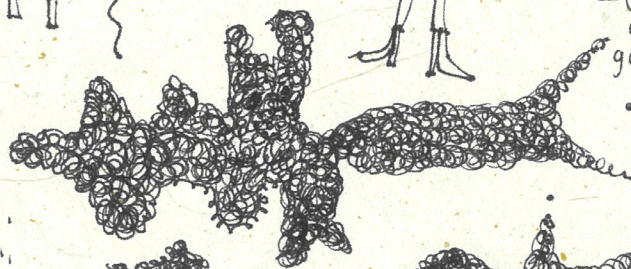

...fearing it all down like adding to a conversation that's already failing. the mess grows as you try to contain it.

"before I let you like this, first I need to say: I hate it all, now go crawling above me I let her sell me and I did all the things! potions bling or maybe, 'As I did sewing my ears to my fingers, I became that... go on and enjoy my terrible art and this cringy self pity"

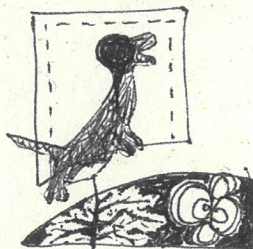

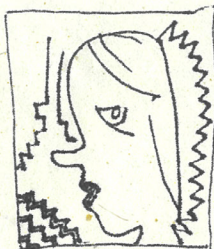

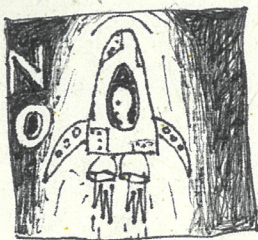

at least I'm
DOING it

— Wait, but is
everything
going wrong
behind my
back?

— Shut
up

look I can go on forever

Dear Joe, I am
appalled by your
absence. I am

that woman again
When we died
together that
first time you

gave me chills
and stars burst
for us above. I
was singing all
the way after rucking
you Joe. And
now that I'm writ-
ing I don't feel
so sad.
